The UCF Cybersecurity Camp will offer Florida high school students entering grades 9-12 a 4-day virtual world of fun and unique interactive challenges. The camp will focus on teaching beginner and intermediate computer security techniques and preparation for cyber competition.

You Will Learn about digital forensics, browser security, malware handling, virtualization and much more. A limited number of students will be selected to participate in the camp, which UCF is conducting in conjunction with the Florida Cyber Alliance.

Visit cybercamp.cs.ucf.edu or call 407-823-6230 for more information.

Cost: $200

Applications due by: June 30, 2018
